### Introduction

The lesson begins with a warm up activity where participants watch a video and get to know some new words in connection to shopping Afterwards they are asked to check other vocabulary in the manual and when they finish the mentor reads out some items he/she would like to buy and asks the participants to tell him/her in which shops he/she can buy them. This is followed by creating some responses to different shopping situations. Afterwards participants check some expressions and use them to fill in one of the exercise in the Final step section and after this they are asked to go through all the dialogues and
